Printed music comes on A4 or A3 if more than one A4 page for all the parts, and score printed on A3 folded to A4 and stapled if more than one sheet. Score will have a title page and may have additional notes if required for any reason. PDF printing assumes all output is for an A4 printer: the user can use various software product available (including many free ones) to format print onto A3 if they have a suitable printer – the pages for parts are always formatted for comfortable turn-overs if more than 2 A4 pages long.
